## "I Am Gabriel" A Scroll in Stone from the Time of Herod

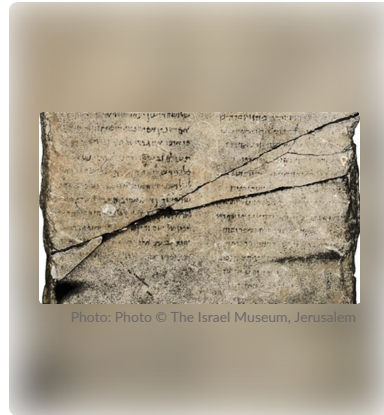

Photo: Photo © The Israel Museum, Jerusalem

### About the Exhibition

An ancient Hebrew text inscribed on a stone stands at the focus of this exhibition, opening a window onto the spiritual world of its writers in the Second Temple period. The inscription is presented along with rare manuscripts, including ancient copies of the Bible, New Testament, and Qur'an. Running like a leitmotif through all the texts and linking the three monotheistic religions is the name of the angel Gabriel.
